This catalogue has been produced by SIG Trading (Ireland) Limited. All rights reserved. No copying by any means is permitted, except when permission is given in writing by SIG Trading (Ireland) Limited. This catalogue contains representations of manufacturers' product information that is reproduced by SIG Trading (Ireland) Limited in good faith, based on the latest knowledge available at the time of going to print. Whilst every effort has been made to ensure that the information is current and correct, as distributors SIG Trading (Ireland) Limited cannot accept responsibility for the application and performance levels of the products featured.

Neither can we accept responsibility where the manufacturers' instructions have not been followed. Illustrations serve to demonstrate the range of products available from SIG. They are not intended to be wholly accurate to true-life build and should therefore not be used as architectural guidance and do not reflect Building Regulation requirements.

IRELAND'S LEADING ROOFING DISTRIBUTOR

For over 30 years SIG Roofing (formerly CAPCO Roofing) has been a leading force in the distribution of natural & fibre cement slates, clay & concrete tiles and roofing accessories in Ireland, with distribution centres located nationwide.

At SIG Roofing our aim is to provide our customers with the broadest range of roofing products from a single source in the Irish market today. Combined with the commitment to provide a first class quality service and technical support at a local level.

What assurances will you get from dealing with SIG Roofing?

We have a wealth of experience built up over nearly 30 years of supplying roofing materials. Our technical department and professional sales team will be able to advise you on your project from planning right through to completion and can deal with any queries that you may have.

We only supply materials from leading manufacturers which conform to the relevant standards. All our products carry a manufacturer backed guarantee, and as part of the SIG group we can offer you the peace that we will be around to deal with any issues that may arise with your roof for many years to come.

Making the right choice

Making the right choice is important, whether you are a seasoned house developer or building your dream home. Finding the right roofing products for your needs can be frustrating. A myriad of questions need answering including:

What is available?

Which products are best for my build?

Where do I get them from?

How much should I pay?

Furthermore, these are all questions which need answering as early in the project as possible.

Achieving a vision

At SIG Roofing we understand the importance of making the right decision and we can help our customers to achieve their vision with confidence.

For over 30 years SIG Roofing has been a leading force in the distribution of natural & fibre cement slates, clay tiles and roofing accessories in Ireland, with Roofing Branches operating from locations nationwide.

Customer satisfaction is key to our commercial philosophy. Our commitment to this is shown in our continued investment in people, products, and in ensuring the supply of quality products sourced only from leading roofing material manufacturers.

It's about people

Professional, well trained people are key to the success of any business. All of our staff receive extensive and ongoing in-house technical and product training, combined with regular manufacturer training to ensure that they are conversant with the latest product developments and legislative changes. We want to ensure that any decisions that our customers make will be informed ones.

Our extensive field sales team work closely with customers, roofing centres, builder's providers and manufacturers to ensure an efficient service; assisting with design, technical and installation issues.

As Ireland's premier distributor of roofing products SIG Roofing is committed to offering nationwide accessibility to the most comprehensive portfolio of products available in the Irish markets today.

Extensive stocks

Every SIG Roofing branch carries a comprehensive range of products, ensuring that we are able to meet customer requirements on time.

As well as an in-depth stock of key products such as natural and fibre cement slates, tiles, and roofing ventilation each branch has an extensive profile of ancillary items including chimney pots and general roofing fixings & tools.

Local availability to a national need

As the only dedicated roofing distributor operating from locations throughout Ireland, we are well placed to ensure that we can offer our customers the support they need on demand. Our Roofing Branches are located in Dublin, Cork, Belfast and Omagh, each with comprehensive stocks, and staffed by technically competent and friendly people who understand the importance of matching the right roofing products to your requirements.

SLATE: *The Natural Choice*

As a leading distributor of roofing products to the construction industry, SIG Roofing offers a range and quality of products unmatched in Ireland.

Only the best natural slates are sourced from leading quarries in Spain, Wales and Brazil, offering both distinctive beauty and durability.

The Capco Natural Slates portfolio has been refined over many years to enable us to offer a range of products that have been tried and tested to offer a lifetime of trouble free performance. All SIG Roofing natural slates conform to the European standards BS EN 12326.

The SIG Roofing portfolio of Spanish slates has been refined over many years; we offer a range of products that have been tried and tested to offer a lifetime of trouble free performance. Sourced from the best quarries of Northern Spain and offer a manufacturer backed guarantee for 50 years from the date of installation. Spanish slates provide a natural beauty together with peace of mind.

Relatively recent to the Irish market are the natural slate products from Brazil; aesthetically distinctive, these slates offer robust beauty combined with high performance and longevity.

FIBRE CEMENT SLATES

SIG Roofing offers the highest quality fibre cement slate products sourced from Europe's leading manufacturers.

The slates are manufactured from Portland cement combined with compressed, high quality synthetic and cellulose fibres. A coloured acrylic coating ensures that the slates provide an individual and aesthetically pleasing finish to any domestic or commercial roof.

Fibre cement slates are available in a variety of finishes to facilitate any design brief, including smooth with square edges and a riven surface to mirror that of natural slate. With manufacturer backed guarantees offered from the date of installation, fibre cement slates from SIG Roofing are engineered to provide many years of reliable performance.

CLAY TILES

Through the development of strong relationships with leading clay tile manufacturers, SIG Roofing is able to offer a range of products to suit any application. Our portfolio is extensive, offering clay roof tiles in a multitude of shapes, sizes and colours and made from a variety of clays.

Working closely with manufacturers we are able to offer products which are manufactured using the latest production technologies. This ensures that our customers receive a consistently high quality engineered product portfolio.

CONCRETE

Concrete tiles are the most widely used and readily available roof covering. Strong and designed to perform in even the most demanding weather conditions, they are a cost-effective solution. Our extensive range of concrete tiles and accessories come in a variety of colours and sizes and offer a number of benefits.

ROOFING ACCESSORIES

Complementing our main product lines of slates and tiles we offer a comprehensive range of other essential roofing products from market leading manufacturers including, breathable and non breathable membranes, roofing ventilation, clay & fibre cement ridge tiles, roof windows, rainwater systems, chimney pots, fixings, and much, much more.

Valley Trim, 3mtr, Black or Graphite

IKO Armourplan PVC

IKO Polymeric's Armourplan® PVC roofing system offers flexible and lightweight waterproofing integrity across a wide range of building types.

Armourplan PVC

The range comes in two standard colours; mid grey (RAL 7046) and slate grey (RAL 7015) with a wide range available to meet project requirements. Armourplan is suitable for warm or cold roofs whether the roof is flat, inverted or sloped.

Armourplan PVC roofing membranes can be mechanically fastened, adhered or ballasted providing maximum system flexibility.

Vapour Control Layers

Vapour control layers are normally considered essential under insulation in warm roof constructions to reduce the risk of condensation.

IKO's vapour control layers are highly durable against water vapour and exhibit excellent mechanical properties. Many also contain IKO's revolutionary fire retardant technology for ultimate protection in service.

Investment in technology

Our ongoing investment to help our customers make the right informed decisions extends into the implementation of new computer estimating software. This has been developed specifically for the roofing industry and it enables us to produce accurate quotations quickly.

This estimation service is operating at all of our Roofing Branches throughout Ireland, further enhancing our service and value to our customers.

Send us your plans: enquiries@sigroofing.ie

The complete roofing solution

SIG Roofing offers a premier range of products combined with levels of service and technical support unequalled in the Irish market today. We are committed to ensuring that our customers receive the assistance to make informed decisions, helping them to realise the final vision for their investment.
